

TECHNICAL DATA SHEET

DASCO KLEEN® 02365

SOAK OR SPRAY WASH CLEANER

DASCO KLEEN® 02365 is a concentrated alkaline liquid cleaning compound designed for use in spray washers and various other metal cleaning systems.

Applications

DASCO KLEEN® 02365 is effective in removing heavy drawing and stamping compounds.

It can also be used in prepaint treatment systems and is compatible with Houghton's conversion coating products.

Recommendation For Use

Recommended operating parameters for DASCO KLEEN® 02365 are concentrations between 2% to 10% by volume and temperature ranges of 110° to 170°F. Cleaning times may vary with type of soil from 30 to 60 seconds.

Benefits

- Safe for use on ferrous and non-ferrous metals.
- Effective in removing a wide variety of soils from light to heavy duty lubricants.
- Low foaming at 120°F or higher.
- Does not promote corrosion.
- May be used at ambient temperatures to dramatically reduce energy costs.
- Incorporates a balance of detergency and surfactancy to provide more effective cleaning.

Health, Safety and Handling

Please consult the Safety Data Sheet (SDS) for information on storage, safe handling and disposal. The conditions or methods of handling, storage, use and disposal of the product are beyond our reasonable control - we assume no liability for any ineffectiveness of the product or any injury or damage, arising out of or in connection with these conditions.

Typical Physical Properties

PROPERTY	TYPICAL VALUE	UNIT
Specific gravity	1.130	
pH of concentrate	>13	
pH @ 5%	12.5-13.0	
Flash Point	None
