

TECHNICAL DATA SHEET

LUPREP™ AC-50

ACID DESCALER/RUST REMOVER

LUPREP™ AC-50 is an organic acid product used for removing oxides, scale and salt deposits from metallic and non-metallic substrates. It can also be used to descale spray washers as needed.

LUPREP™ AC-50 will remove light rust, metallic oxides, water scale, and light oil from most substrates including stainless steel alloys.

Applications

Organic acid for use on all metal substrates to remove surface oxides.

Recommendation for Use

LUPREP™ AC-50 is used at ambient to 140° F at a concentration of 1-5% v/v in spray applications and 5-20% v/v in immersion applications.

Benefits

- Effective in removing surface oxides and minor amounts of soil from most substrates
- No strong smell associated with corrosive mineral acids
- Capable of removing both organic and inorganic debris
- Multi functional applications for reduced product inventory

Health, Safety and Handling

Please consult the Safety Data Sheet (SDS) for information on storage, safe handling and disposal. The conditions or methods of handling, storage, use and disposal of the product are beyond our reasonable control - we assume no liability for any ineffectiveness of the product or any injury or damage, arising out of or in connection with these conditions.

Properties
