We are Quaker Houghton

The global leader in industrial process fluids. If it’s made of metal, if it’s rolled, cut, drawn or cast, Quaker Houghton is there, optimizing processes, reducing costs, advancing safety and sustainability…and driving progress.

34 manufacturing facilities
35 R&D technology centers
78 offices

Partners in progress

We take on your challenges as our own, bringing the right combination of science, engineering, and business savvy to get it done. Our chemists, engineers and industry experts are driven by a relentless commitment to improving your operations.

Applied expertise

Our experienced, committed experts work tirelessly to solve your toughest challenges, whether on your factory floor or in our own labs and plants. We are acknowledged authorities on industrial fluids and their application in your processes. Finding innovative solutions so that your operations run even more effectively and efficiently.

Boosting performance

In the past decade alone, we have saved our customers millions of dollars. With solutions tailored for optimized performance for each individual customer, site and process. Reducing your total cost of ownership. Boosting productivity. Driving competitiveness. And keeping you ahead in a changing world.

Delivering on all your industrial process fluid needs

- Cleaners
- Neat cutting oils
- Corrosion preventives
- Non-ferrous rolling oils
- Die casting fluids
- Quenchants
- Drawing and forming fluids
- Soluble metal removal fluids
- Fire-resistant hydraulic fluids
- Specialty coatings
- Forging fluids
- Steel rolling oils
- Industrial lubes and greases
- Surface treatment fluids
- Metal finishing fluids
